Land Rover Model; 90

I brought this as my first motor 3 years ago as basic vehicle that was in desperate need of a new chasis and with an engine that was going to blow sooner rather than later. Since then it spent a week being converted to house an Isuzu 2.8 diesel but still needs a new skeleton—any volunteers for a project in the next year or so are very welcome!

This hasn't stopped me wanting to improve it;

2" lift and gas suspension
Mud terrain BFG's
Snorkel
Light bar
A-bar bumper
Front and rear dislocation cones
Rock Sliders with nerf bars
New seats
Dog guard with chocolate access cut in!
Various bits of chequer plate

Let us know what you have been up to

- Laning Trips
- Trials
- Competitions
- Shows
- Repairs

All articles are welcome—either photos with captions or fully written paragraphs. Give us instructions on how to do repairs or show us what you have been up to.

It doesn't have to be club based—as long as you enjoyed yourself in a Land Rover way!
